

IFSL YOU Multi-Asset Blend Balanced Fund

Accumulation - GBP

Objective

The objective of the Fund is to increase the value of its investments over a minimum of five years, through a combination of capital growth, which is profit on an investment, and income, which is money paid out from an investment such as interest and dividends. The Fund is actively managed, which means the Investment Manager decides which investments to buy and when, and will invest at least 80% in other collective investment schemes, investment trusts and exchange-traded funds.

Performance summary to 31st March 2024

The Fund performance figures are presented net of the Ongoing Charges Figure (OCF) and are compared to the IA Mixed Investment 20-60% index. This is a risk-based index measuring the performance of investment managers with similar investment characteristics to the MAB Balanced fund.

	MAB Balanced	IA Mixed Investment 20-60%
1 Month	2.5%	2.4%
3 Month	3.8%	2.5%
Year-to-date	3.8%	2.5%
1 Year	8.9%	7.7%
3 Year	8.8%	5.3%
Since Inception	22.0%	12.5%

Past performance is not a guide to future performance. Investments may fall as well as rise and you may not get back your original investment.

Key facts

Fund AUM	£769.3m
Fund NAV	122.0p
Number of Holdings	35
Ongoing Charges Figure	1%
Fund Launch Date	22nd July 2019
Domicile	United Kingdom
Base Currency	Pound Sterling
Fund Type	OEIC, NURS
Valuation Point	12 O'Clock GMT
Citi	QF3B
ISIN	GB00BJ022P70
SEDOL	BJ022P7
Fund Managers	Shane Balkham Cormac Nevin Chris Ayton

Management charges & fund charges:

Annual Management Charge (AMC): This represents the cost of investing in the underlying Fund Manager and covers the direct, day-to-day costs of managing the Fund.

Ongoing Charges Figure (OCF): The OCF includes the AMC described above, as well as additional administrative costs of holding a Fund including administrative, legal, audit, depository and regulatory costs. Transaction costs may be charged in addition to the OCF.

Market

March was a strong month for global markets, capping the best first quarter for the MSCI World Index of global equities in five years. That same index was up +3.4% for March and is now up +10.0% for the year to date in GBP terms.

UK Equities were the strongest performing global equity market for the month of March, up +4.8% as measured by the FTSE All Share Index. This was followed by Continental European Equities (+3.8%) and US Equities (+3.4%). Japanese Equities were up +4.3% in local currency terms, but a continued weakness in the Yen translated this into a +3.3% return for GBP investors. Emerging Market Equities were the laggards for the month, but still managed a solid return of +2.7% in GBP, largely owing to relative weakness in Chinese markets.

March was an interesting month relative to January or February of this year, as while markets were strong on the surface, performance was more balanced between larger and smaller companies. For the prior two months of the year, and the quarter when viewed as a whole, the rally has been quite narrow and concentrated in existing winners.

Examples of these winners include stocks with any relevance whatsoever (however tenuous) to the "artificial intelligence" revolution or very specific pharmaceutical companies with exposure to anti-obesity drugs. We have seen this "momentum" phenomenon across markets, whether in the US, Japan, the UK or Emerging Markets and while it is pleasing to see strong returns, we think it is essential to remain diversified across geographies and styles when investing for the long term.

Performance

In March, your Fund returned +2.5%, which was ahead of its performance comparator which was returned +2.4%. Since its launch on 22nd July 2019 your Fund has generated a return of +22.0%.

All asset classes had a positive impact on the performance of your Fund in March. Strong returns from equity markets had the largest impact, particularly from UK and US markets.

Given its balanced asset allocation, the performance of Fixed Income often plays a big role in this Fund and it also contributed positively this month as Global Investment Grade Bonds, measured by the Bloomberg Global Aggregate Index, rallied +0.9% over the month in GBP Hedged terms.

From an individual manager perspective, we saw another strong month from the managers we hold in the Property & Real Assets and Absolute Return asset classes. These included a diversified commodity ETF which is run by UBS. Performance of commodities was boosted by strong returns from gold, energy and agricultural goods such as cocoa which has been rallying very sharply due to drought in west Africa (right in time for Easter). Other strong performers for the month included the ClearBridge Global Infrastructure Fund and the Sanlam Multi Strategy Fund, which run highly differentiated strategies. It has been pleasing to see strong returns from radically different sources persist throughout the quarter.

No changes were made to the Fund's Tactical Asset Allocation. The Fund remains highly diversified across asset classes, regions, and investment styles, with a preference towards Active managers.
